**Our priorities at Pilgrims' Way School are:**

- To narrow the gap for those pupils not on track to achieve the expected standard at the end of KS2.
- To ensure early identification of additional needs and to promote early intervention programmes.
- To ensure that there is extra adult support to facilitate emotional and social development.
- To use academic research (Sutton Trust report, Carol Dweck, John Hattie) to make informed choices about the most suitable intervention programmes to use with our children to ensure we are promoting accelerated learning.

This provision will include:

- Facilitating pupils' access to education – those children who have emotional needs will have access to a counsellor (play therapist) who will work with both the child and the family.
- Facilitating pupils' access to the curriculum – children who are not on track will be attend intervention groups, extra classes and 1:1 support where necessary.
- Additional teaching and learning opportunities – eligible families will receive support in accessing extra-curricular activities and enrichment opportunities.
- Provision for more able pupils – those children who are eligible for PP grant and who are on track will take part in interventions where they are stretched to achieve their full potential.
